ANNEX 1: TERMS OF REFERENCE

• BACKGROUND INFORMATION

In line with the gaps identified by the Global Protection Cluster, the anti-trafficking task force and recommendations set forward, NCA intends to mainstream prevention and mitigation of human trafficking within its humanitarian response efforts.

NCA aims at establishing a holistic response at the country level, particularly in regard to reaching the most vulnerable and, most importantly, preventing further harm induced by trafficking and organised prostitution in the relevant humanitarian responses. Prevention of trafficking, furthermore, promotes human rights, and women's rights.

The consultant will develop an inter-sectoral community awareness module on the prevention of human trafficking, which will be integrated across NCA's thematic programmes and used by all community outreach workers. This means that hygiene promoters under the WASH programme will raise awareness of trafficking, as will GBV and ASRH outreach workers. The comprehensive sexuality education manual will also include a session on trafficking, forced prostitution and other forms of exploitation.

The community awareness module on trafficking will include a discussion guide for community participatory assessments, community meetings, discussions and dialogues. The module will be adjusted for various target groups, particularly children and young people, and be used in WASH committees, school committees and other existing community structures.

The module will specifically focus on human trafficking that takes place within ongoing conflict/humanitarian settings. Human Trafficking is typically not considered as a direct consequence of a crisis. However, it is known that in times of conflict/humanitarian crisis vulnerabilities of numerous populations increase. Within crises situations vulnerabilities escalate due to the reduced ability of families and communities to provide for their basic needs; erosion of the rule of law; the breakdown of social safety nets and other social protection systems. This misplaced assumption often hampers the field response to human trafficking cases.^[1]

Responding to human trafficking and exploitation in times of crisis, should be considered as a life-saving protection activity. When referring to the Central Emergency Relief Fund (CERF) definition of life-saving activities, these are actions that within a short time span remedy, mitigate, or avert direct loss of life, physical and psychological harm or threats to a population or major portion thereof and/or protect their dignity.

Victims of human trafficking experience grave forms of mistreatment including abduction, rape, physical beatings and torture. Therefore, countering human trafficking can contribute to the prevention of psychological harm of potential trafficking victims, physical harm and risk of death that might result from exploitative measures.

The Contractor shall refrain from engaging in any activity which conflicts with his obligations towards the Contracting Authority under the contract.

The Contractor shall take all necessary measures to prevent or end any situation that could compromise the impartial and objective performance of the Contract. Such conflict of interests could arise in particular as a result of economic interest, political or national affinity, family or emotional ties, or any other relevant connection or shared interest. Any conflict of interests

which could arise during performance of the Contract must be notified in writing to the Contracting Authority without delay. The Contractor shall replace, immediately and without compensation from the Contracting Authority, any member of its personnel exposed to such a situation.

The payments to the Contractor under the contract shall constitute the only income or benefit it may derive in connection with the contract and neither it nor its personnel shall accept any commission, discount, allowance, indirect payment or other consideration in connection with, or in relation to, or in discharge of, its obligations under the contract.

The execution of the contract shall not give rise to unusual commercial expenses. The Contractor further warrants that no official of the Contracting Authority and/or their partner has received or will be offered by the Contractor any direct or indirect benefit arising from this Contract.

9. JOINT VENTURE OR CONSORTIUM

If the Contractor is a joint venture or a consortium of two or more legal persons, all such persons shall be jointly and severally bound to fulfil the terms of the contract. The person designated by the joint venture or consortium to act on its behalf for the purposes of this contract shall have the authority to bind the joint venture or consortium.

The Contractor must inform the Contracting Authority of all non-expert personnel it intends to use for the implementation of the contract. The Contracting Authority shall have the right to oppose the Contractor's choice of personnel.

13.2. No changes shall be made in the personnel without the prior consent of the Contracting Authority. The Contractor shall provide a replacement with at least equivalent qualifications and experience and acceptable to the Contracting Authority if:

a) on account of death, sickness or accident, a member of the Personnel is unable to continue providing his services,

b) any member of the personnel is found by the Contracting Authority to be incompetent in discharging or unsuitable for the performance of his duties under the Contract,

c) for any reasons beyond the control of the Contractor, it becomes necessary to replace any member of the Personnel.

The Contractor shall proceed swiftly with the request and propose a replacement with at least equivalent qualifications and experience. The remuneration to be paid to the replacement cannot exceed that received by the replaced member of the personnel.

Additional costs arising out of a replacement shall be borne by the Contractor.

13.3. Working hours

The days and hours of work of the Contractor or/and its personnel in the beneficiary country shall be fixed on the basis of the laws, regulations and customs of the beneficiary country and the requirements of the services.

Approval by the Contracting Authority of the Contractor's reports and issue of Completion Certificate shall not relieve the Contractor of its liability and shall not prevent the Contracting Authority from claiming damages.

The Contractor shall remain liable for any breach of its obligations under the contract for such period after the services have been performed as may be determined by the law governing the contract (the liability period). This

time limit does not however apply when the damage arises from gross negligence or wilful misconduct of the Contractor.

During the liability period, or as soon as practicable after its expiration, the Contractor shall, at its expense, upon instruction of the Contracting Authority, remedy any deficiencies in the performance of the services. During execution of the contract, the Contractor shall, when required, provide the Contracting Authority with copies of the insurance policies and the receipts for payment of premiums.

Failure on the part of the Contractor to arrange such insurance shall render the contractor liable for any losses, or claims made against the Contractor or Contracting Authority by any party in relation to the Contract.

17. INTELLECTUAL AND INDUSTRIAL PROPERTY RIGHTS

All reports and data such as maps, diagrams, drawings, specifications, plans, statistics, calculations, databases, software and supporting records or materials acquired, compiled or prepared by the Contractor in the performance of the contract shall, with the copyright thereto, be the absolute property of the Contracting Authority. For a fee-based contract, timesheets recording the days worked by the Contractor's personnel must be maintained by the Contractor. The timesheets must be approved by the Contracting Authority or any person authorised by the Contracting Authority or the Contracting Authority itself on a monthly basis. The amounts invoiced by the Contractor must correspond to these timesheets. In the case of long-term experts, these timesheets must record the number of days worked. In the case of short-term experts, these timesheets must record the number of hours worked. Time spent travelling exclusively and necessarily for the purpose of the Contract may be included in the numbers of days or hours, as appropriate, recorded in these timesheets.

Such records must be kept for a 7-year period after the final payment made under the contract. These documents comprise any documentation concerning income and expenditure and any inventory, necessary for the checking of supporting documents, including timesheets, plane and transport tickets, pay slips for the remuneration paid to the experts and invoices or receipts for reimbursable expenditure. Failure to maintain such records constitutes a breach of contract and will result in the termination of the contract.

ANNEX 5: CODE OF CONDUCT FOR CONTRACTORS

NORWEGIAN CHURCH AID
actalliance

Code of conduct for contractors Ethical principles and standard

By this Code of Conduct, the Contracting Authority applies ethics to procurement. We expect our contractors to act socially and environmentally responsible and actively work for the implementation of the standards and principles in this Code of Conduct. The Code of Conduct is applicable for all our contractors who supply goods, services and works to our operations and projects.

This Code of Conduct and its related principles and standards are based on recommendations from the Danish Initiative for Ethical Trade (DIEH)¹, the UN Global Compact principles² and ECHO's Humanitarian Aid Guidelines for Procurement 2011³.

General Conditions

The Code of Conduct defines the ethical requirements and standards for our contractors, whom we expect to sign and respect the Code of Conduct, and work actively towards the implementation hereof. By signing the Code of Conduct contractors agree to place ethics central to their business activities.

The provision of the ethical standards constitutes minimum rather than maximum standards. International and national laws shall be complied with, and where the provisions of law and the Contracting Authority's standards address the same subject, the highest standard shall apply.

It is the responsibility of the contractor to assure that their contractors and subcontractors comply with the ethical requirements and standards set forth in this Code of Conduct.

The Contracting Authority acknowledges that implementing ethical standards and ensuring ethical behaviour in our supply chain is a continuous process and a long term commitment for which we also have a responsibility. In order to achieve high ethical standards for procurement we are willing to engage in dialogue and collaboration with our contractors. In addition we expect our contractors to be open and willing to engage in dialogue with us to implement ethical standards for their businesses.

Unwillingness to co-operate or serious violations of the Code of Conduct will lead to termination of contracts.

Human Rights and Labour Rights

Contractors must at all times protect and promote human- and labour rights and work actively to address issues of concern. As a minimum they are obliged to comply with the following ethical standards:

- **Respect for Human Rights** (UN Universal Declaration of Human Rights)
The basic principles of the Universal Human Rights are that all human beings are born free and equal in dignity and in rights, and everyone has the right to life, liberty and security of the person. Contractors must not flaunt their responsibility to uphold and promote the Human Rights toward employees and the community in which they operate.
- **Non exploitation of Child Labour** (UN Child Convention on the Rights of the Child, and ILO Convention C138 & C182)

Contractors must not engage in the exploitation of child labour⁴ and contractors must take the necessary steps to prevent the employment of child labour. A child is defined as a person under the age of 18 and children shall not be engaged in labour that compromise their health, safety, mental and social development, and schooling. Children under the age of 15 (in developing countries 14) may not be engaged in regular work, but children above the age of 13 (in developing countries 12) can be engaged in light work if it does not interfere with compulsory schooling and is not harmful to their health and development.

- **Employment is freely chosen** (ILO Convention C29 & C105)
Contractors must not make use of forced or bonded labour and must respect workers freedom to leave their employer.
- **Freedom of association and the right to collective bargaining** (ILO Convention C87 & C98)
Contractors must recognise workers right to join or form trade unions and bargain collectively, and should adopt an open attitude towards the activities of trade unions (even if this is restricted under national law).
- **Living wages are paid** (ILO convention C131)
As a minimum, national minimum wage standards or ILO wage standards must be met by contractors. Additionally a living wage must be provided. A living wage is contextual, but must always meet basic needs such as food, shelter, clothing, health care and schooling and provide a discretionary income⁵ - which is not always the case with a formal minimum wage.
- **No discrimination in employment** (ILO Convention C100 & C111 and the UN Convention on Discrimination against Women)
Contractors must not practice discrimination in hiring, salaries, job termination, retiring, and access to training or promotion - based on race, national origin, caste, gender, sexual orientation, political affiliation, disability, marital status, or HIV/AIDS status.
- **No harsh or inhumane treatment of employees** (ILO Convention C105)
The use of physical abuse, disciplinary punishment, sexual abuse, the threat of sexual and physical abuse, and other forms of intimidation may never be practiced by contractors.
- **Working conditions are safe and hygienic** (ILO Convention C155)
Contractors must take adequate steps to provide safe and hygienic working environments. Additionally workers safety must be a priority and adequate steps must be taken to prevent accidents and injury to health associated with or occurring in the course of work.

⁵ Discretionary income is the amount of an individual's income that is left for spending, investing, or saving after taxes and personal necessities (such as food, shelter, and clothing) have been paid.

- *Working hours are not excessive* (ILO Convention C1 & C14)
Contractors must ensure that working hours comply with national law and international standards. A working week of 7 days should not exceed 48 hours and employees must have one day off per week. Overtime shall be compensated, limited and voluntary.
- *Regular employment is provided* (ILO Convention C143)
All Work performed must be on the basis of a recognised employment relationship established through international conventions and national law. Contractors must protect vulnerable groups regular employment under these laws and conventions and must provide workers with a written contract.

International Humanitarian Law

Contractors linked to armed conflicts or operating in armed conflict settings shall respect civilian rights under International Humanitarian Law and not be engaged in activities which directly or indirectly initiate, sustain, and/or exacerbate armed conflicts and violations of International Humanitarian Law⁶. Contractors are expected to take a do no harm approach to people affected by armed conflict.

Additionally, Contractors shall not be engaged in any other illegal activity.

Involvement in Weapon Activities

The Contracting Authority advocates for the Ottawa Convention against landmines and the Convention on Cluster Munitions against cluster bombs. Contractors shall not engage in any development, sale, manufacturing or transport of anti-personnel mines, cluster bombs or components, or any other weapon which feed into violations of International Humanitarian Law or is covered by the Geneva Conventions and Protocols.

Protection of the Environment

The Contracting Authority wishes to minimise the environmental damages applied to nature via our procurement activities and we expect our suppliers and contractors to act in an environmentally responsible manner. This involves respecting applicable national and international environmental legislation and acting in accordance with the Rio Declaration.

As a minimum contractors should address issues related to proper waste management, ensuring recycling, conservation of scarce resources, and efficient energy use.

Anti-Corruption

Corruption is by the Contracting Authority defined as the misuse of entrusted power for private gain and it includes bribery, fraud, embezzlement and extortion. The Contracting Authority holds a great responsibility to avoid corruption and ensure high standards of integrity, accountability, fairness and professional conduct in our business relations. Contractors are expected to have the same approach by undertaking good and fair business ethics and practices, take action to prevent and fight corruption, and abide by international conventions as well as international and national laws. To fight corruption and promote transparency, contractors who are confronted with corrupt practices are advised to file a complaint in a Complaint Mechanism⁷.

A contractor's involvement in any form of corrupt practice during any stage of a selection process, in relation to the performance of a contract or in any other business context is unacceptable and will lead to the rejection of bids or termination of contracts.

Sexual Exploitation and Abuse

Contractors, their staff, sub-contractors and any other personnel engaged by the contractor, must not:

- Sexually exploit or sexually abuse any individual.
- Engage in any sexual activity with a child or children regardless of the age of majority or age of consent locally. A child is defined as

being below 18 years of age. Mistaken belief in the age of a child is not a defence.

- Act in ways that may place a child at risk of abuse, including not giving due consideration to assessing and reducing potential risks to children as a result of implementing activities. Behaviours and actions that are prohibited include, but are not limited to, using inappropriate language or behaviour when dealing with a child or children, bullying and harassing a child verbally or physically, physical punishment, exposing a child to pornography including on-line grooming and trafficking. Whenever possible avoid being alone with a child.
- Consume, purchase, sell, possess and distribute any forms of child pornography.
- Exchange money, employment, goods or services for sex, including sexual favours or other forms of humiliating, degrading or exploitative behaviour. This includes the buying of or profiting from sexual services as well as exchange of assistance that is due to right holders for sexual favours.
- Exploit the vulnerability of any target group in the context of development, humanitarian and advocacy work, especially women and children, or allow any person/s to be put into compromising situations. Never abuse a position to withhold development or humanitarian assistance, or give preferential treatment; in order to solicit sexual favours, gifts, payments of any kind, or advantage.
- Engage in sexual relationships with members of crisis-affected populations given their increased vulnerability and since such relationships are based on inherently unequal power dynamics and undermine the credibility and integrity of aid work.
